## PROFESSIONAL SUMMARY

Experienced Frontend Engineer with 10+ years of expertise in designing and building scalable, high-performance web applications. Proven track record in modern JavaScript frameworks, micro-frontends architecture, performance optimization, and team leadership. Skilled in translating complex business requirements into maintainable frontend solutions with strong focus on user experience and accessibility.

## PROFESSIONAL EXPERIENCE

### Tech Lead

#### Lowe's (Intelliswift On Contract)

April 2024 – Present (*React, Redux, Responsive web design, MFE, Windsurf*)

- Led end-to-end development of Product Details and configurable PDP (Product Detail Pages) features in collaboration with Product Managers
- Designed and developed micro-frontends (MFEs) from ground up, establishing architecture, UI structure, and integration patterns
- Drove UI revamp and functional enhancement of Visualizer micro-frontend, improving usability, performance, and user experience
- Actively participated in technical design discussions and code reviews, ensuring adherence to frontend best practices and scalable architecture
- Mentored and guided team members through code reviews and design discussions, improving overall code quality

### Senior Frontend Developer

#### Navya Care

May 2022 - October 2023

- Optimized code to enhance performance and efficiency of customer-facing web applications, ensuring seamless user experience
- Conducted usability testing and integrated user feedback into UI design process for improved user satisfaction
- Collaborated with designers and medical professionals to create intuitive, user-friendly interfaces, improving patient engagement by 25%
- Spearheaded development of new features on customer-facing web application, contributing to continuous product improvement

## **Senior Frontend Developer**

**Stixis Technologies**

*August 2021 - April 2022*

- Partnered with product owners and UX designers to translate complex business requirements into scalable, maintainable frontend architecture
- Designed and delivered multiple production-grade applications within React.js ecosystem, leveraging React Hooks, Redux, and modern best practices
- Mentored and guided Junior Software Engineers, supporting onboarding, technical growth, and adherence to engineering standards
- Facilitated effective communication with Business Analysts and medical professionals to gather requirements for user-friendly UI development

## **Senior Frontend Developer**

**Bounce / WickedRide**

*October 2017 - March 2021*

- Promoted from Junior Developer to Senior Developer, demonstrating outstanding performance and technical expertise
- Played pivotal role as individual contributor, developing new features for web application ensuring continuous growth and innovation
- Led team of 5 developers, coordinating efforts to develop pilot features, oversee bug fixes, and manage API integration
- Contributed to development of tools like Zendesk, enhancing functionality and usability for end users
- Managed fleet management app, ensuring smooth operations and ongoing improvements
- Ensured web application compliance with accessibility standards (WCAG), improving usability for diverse user demographics

## **Frontend Developer**

**Ebix / Healthcare Magic / Glowroad**

*December 2015 - October 2017*

- Served as early team member at Glowroad, contributing to company growth and success
- Developed advanced algorithms to enable display of multiple preview images on posts, enhancing visual appeal and platform engagement
- Proficiently integrated APIs using JSP pages, leveraging JavaScript and jQuery to enhance platform capabilities
- Improved frontend performance through optimization techniques including component memoization, efficient state management, and bundle optimization

## Application Programmer

**CusineLinks**

*January 2015 - December 2015*

- Converted design mockups into responsive webpages using HTML, CSS, JavaScript, and jQuery
- 

## TECHNICAL SKILLS

**Frontend Frameworks & Libraries:** React, Redux, Next.js, React Hooks, Web Components

**Languages:** HTML5, CSS3, JavaScript (ES6+), jQuery, JSP

**Build Tools & Tooling:** Webpack, Git, CI/CD, Node.js, Storybook

**Design Frameworks:** Bootstrap, Material UI, Tailwind CSS

**CMS & Content Platforms:** Contentful, [Sanity.io](#)

**Design Tools:** Figma

**Architecture:** Micro Front-End (MFE), Frontend Architecture Patterns, Design Patterns

**Specialties:** Performance Optimization, Code Optimization, Accessibility (WCAG Compliance), API Integration, State Management, Bundle Optimization

**AI & Tools :** AI-Assisted Development (Windsurf AI Editor, Cascade agent), Backend-as-a-Service & Database Integration (Supabase)

---

## CORE COMPETENCIES

- Frontend Architecture and Design Patterns
  - Micro-Frontend Development
  - Performance Optimization
  - User Experience Design and Implementation
  - Team Leadership and Mentoring
  - Code Review and Quality Assurance
  - API Integration
  - Accessibility Standards (WCAG)
  - Agile Development
  - Stakeholder Collaboration
- 

## LANGUAGES

- English (Fluent)
- Hindi (Fluent)
- Kannada (Fluent)
